
Common Round Nails

Common nails as the name suggests, these are your everyday nails. Used for rough construction work, the common nail can be purchased in lengths varying from one to six inches (2d to 60d). The largest common nails are colloquially known as spikes ,Common nails are used for general construction and specifically for framing and other structural work. They have a thick shank, a wide head, and a diamond-shaped point.

Steel material : Low carbon steel Q195 Q235 SAE1006 SAE1008

Packing: 1lb 5lbs 1kg 5kg 10kg 25kg per box or bag

Specifications

Length of nails		Diameter of nails
