**Barbed wire** also known as barb wire ,occasionally corrupted as bobbed wire or bob wire,is a type of steel fencing wire constructed with sharp edges or points arranged at intervals along the strands.It is used to construct inexpensive fences and is used atop walls surrounding secured property .It is also a major feature of the fortifications in trench warfare.

A person or animal trying to pass through or over barbed wire will suffer discomfort and possibly injury. Barbed wire fencing requires only fence posts, wire and fixing devices such as staples. It's simple to construct and quick to erect, even by an unskilled person.

<b>Specification :</b>	<b>Barb distance</b>	<b>Barb length</b>
BWG10XBWG12	7.5-15cm	1.5-3.0cm
BWG12XBWG12		
BWG12XBWG14
